

Call for Papers

World Congress on Micro and Nano Manufacturing 2017 A Joint Conference of ICOMM/4M/IFMM

Garden Villa,
Kaohsiung, Taiwan
March 27~30, 2017

Dear Colleagues,

We would like to invite you to the **World Congress on Micro and Nano Manufacturing 2017**, a joint conference of the **12th International Conference on MicroManufacturing (ICOMM2017)**, the **13th Multi-Material Micro Manufacture (4M)**, and the **International Forum on MicroManufacturing (IFMM'17)**. The Congress, organized by the International Institution for Micromanufacturing (I2M2) and the 4M Association, is bringing together the worldwide community of micromanufacturing experts. This is the first time that the three major micromanufacturing conferences join together, and the first that **4M** moves to Asian area. This world congress is focused on the **processes, equipment, and systems for fabricating miniature parts with micro/nano/meso-scale features**.

Papers that presents original research and development in issues related to process, manufacture, assembly, and metrology for components and systems with micro/nano/meso-scale features and dimensions are invited. **Topics to be covered (but not limited to):**

- Micro/nano fabrication technologies and process chains
- Novel micro/nano product designs and assembly technologies
- Process characterization, modeling and simulation
- Intelligent monitoring/inspection systems/methods for micro/nano/meso manufacturing
- Smart materials characterization and material related issues in micro/nano/meso scale
- Tribology and surface engineering in micromanufacturing

All papers must be technical in nature and include original work. The copyrights of the papers remain with the authors. **Four-page conference papers are due on November 15, 2016.**

Important Dates:

November 15, 2016 – Deadline to submit the conference papers

January 31, 2017 – Feedback to authors from the reviewers

February 12, 2017 – The deadline for the Early Bird Registration discount

February 19, 2017 – Authors' registration deadline and upload of edited papers

March 27, 2017 – Start of World Congress on Micro and Nano Manufacturing 2017

Website: <http://ww2.me.ntu.edu.tw/wccmmn2017/>

Details about manuscript submission, registration, keynote speakers will be available at the congress website soon. We look forward to seeing you at the World Congress on Micro and Nano Manufacturing 2017 next spring.

Sincerely,

Yunn-Shiuan Liao, Conference Chair, National Taiwan University

Albert J. Shih, Conference Co-Chair, University of Michigan

Ching-Ming Chen, Conference Co-Chair, Metal Industries R&D Centre
